

Electrical Parts for Forklifts

Forklift Electrical Parts - Forklifts can be specifically labeled for use in dangerous places. A labeled forklift indicates the design has met the minimum requirements of ANSI/UL 558 utilized for engine powered lift trucks or ANSI/UL 583 utilized for electric lift trucks for the type of label put.

Applications for marked lift trucks may be found in National Fire Protection Association NFPA 505 - Powered Industrial forklifts including: Areas of Use, Maintenance and Operation, and Type Designations. Ask your local insurance carrier and Fire Marshall for additional info about the approved uses of industrial powered lift trucks in your application.

If the particular lift truck satisfies the outlined standards, labels could be put. A labeled forklift would show the type of designation placed on the nameplate and will have a properly corresponding label put.
