

Clark Forklift Part

Clark Forklift Parts - Performing globally, there are at this time 350,000 Clark forklifts and lift trucks in operation, with more than 250,000 of those in service in North America. Clark has five main lines of forklifts across the globe, making it one of the most expansive corporations in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, gasoline, LPG, hand-driven trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift has 20 distinctive designs of lift trucks, with parts covering more than 120,000 specialized parts for all of its automated equipment. Your local Clark Dealer is your complete source for availability of all your components requirements offered by Clark Totalift.

Clark's phenomenal Parts Distribution Stores are conveniently stationed in Louisville, Kentucky, which serves both their customers and dealers in North America, and Changwon, South Korea, which handles their Asian sellers and consumers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing companies. Motivated to provide the highest level of value and service to our clients, Clark remains on the leading edge when it comes to enhancing efficiency and benefiting performance.

Clark Totalift has a very outstanding international support network. With over 550 locations worldwide, dealer representation in over 80 nations and 230 locations in North America, their high level of dedication to their consumers predominates the material handling industry.

Clark proudly remains an innovative leader of the industrial equipment industry, pioneering protection features such as the worker restraint system. This exceptional commitment to safety is currently a standard feature on every forklift.

Clark's continual goal to possess the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first forklift manufacturer across the world to be certified with the internationally accepted quality standard ISO 9001 for each and every one of their production facilities. Also, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be prepared for any number of environmental restrictions, thus placing them in a prevailing industry position.

Clark has preferred the extremely economical and beneficial system of "Lean Production" for its assembly plants and use of resources. This system was developed to acknowledge the most effective approaches of production facility management and ensuring maximum efficiency. Clark has completed this transition of its Korean plant. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and production efficiencies.

By working collectively, Clark's product suppliers and engineers communicate towards enhancing product effectiveness while minimizing expenses. The new value engineering program combines modern product growth and delivers superior customer support and service within the industry.
