

## Meritor Parts

Meritor Parts - Meritor is a leading international dealer which is proudly built on a one hundred year tradition of quality and service. They focus on various modules, integrated systems and parts to original machinery makers and the aftermarket for the industrial and transportation sectors.

Meritor values the wishes of all their customers to ensure their success while priding itself in the company's unique energy and feels this output of energy to be their competitive advantage in their international operations. Meritor starts with a philosophy which values diversity of people and their broad thought processes. Operating in 19 countries and employing over eleven thousand two hundred people, Meritor promotes collaboration and innovation among a team of knowledgeable professionals.

Meritor strongly believes in only hiring future focused staff. These top-caliber people can rapidly adapt to changing surroundings and freely demonstrate the level of commitment and performance needed to be able to attain results for the competitive market environment. The company empowers their teams to make sound business decisions to be able to improve the overall success of the business. In return, Meritor provides all of their workers different chances for personal and professional growth.

The Advanced Engineering team is on the forefront of systems engineering and components. This comprises axles, drivelines, suspension and braking systems intended for heavy duty and medium trucks, trailers, off-highway vehicles, buses and military vehicles. The Meritor Advanced Engineering team is growing. They opened a new technical center in Bangalore, India in September 2009 in order to lead their advanced product development initiatives which represent the entire Asia Pacific region. This team is even responsible for supporting the needs of their international engineering personnel.

Meritor's customer focused and dynamic Quality team is committed to ensuring optimum processing at their production plants and aftermarket distribution facilities that are located all around the globe in 19 countries and in 5 different continents.

They have their supplier network that is specifically situated so as to support the growth of the business. Each and every regional team has globally supported quality systems, initiatives and centralized in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program promotes a data-driven, fact-based method to decision making within every aspect of the company. The DFSS or Design for Six Sigma ensures product reliability within every region. The team is even included transactional Green Belts who utilize Six Sigma tools to business processes and implement lean methods.
